Diesel Fuel Escalation Surcharge

Throughout the year fuel prices will be monitored for increases from the benchmark fuel price of \$2.00/Litre. Adjustments will be made on 10 cent incremental changes in fuel prices as follows:

Price of Diesel relative to \$2.00/Litre Benchmark	Surcharge Applied (% Increase on all Base Rates)
+\$0.00 - \$0.09	No Change
+\$0.10 - \$0.19	1.50%
+\$0.20 - \$0.29	3.00%
+\$0.30 - \$0.39	4.50%
+\$0.40 - \$0.49	6.00%
+\$0.50 - \$0.59	7.50%
+\$0.60 - \$0.69	9.00%
+\$0.70 - \$0.79	10.50%
+\$0.80 - \$0.89	12.00%
+\$0.90 - \$0.99	13.50%
For each additional 10 cents	1.50%

Fuel prices will typically be reviewed every other Friday and any increase will remain in effect for a 2-week period. However, if there are significant changes to the price of Diesel or the price of fuel appears very volatile, fuel prices may be reviewed more frequently.

Fuel Surcharge increases are only valid for the period specified and are not permanent or cumulative. Haulage Rates always return to their yearly base rates at the end of any specified period.
